

My favourite Actor

Remember that your chosen star can be male or female! Here are ideas to help your research.

You are unlikely to complete all of the work. Attempt as much as possible. Try to aim for about 4 sides of work (with pictures and graphs) as a minimum.

- Who is your favourite actor or actress?
Just write about one person.
- Why do you like that person?
Add some pictures to your project
- What do other people think of that actor?
Design a questionnaire and ask people to fill it in.
Ask other people at home what they like or dislike about the actor.
- What film or television roles has the actor been in?
Make a list of different roles and write about that person's career.
Get this information from the Internet or from magazines.
Ask people which roles that they remember.
Does the actor tend to play one sort of character usually?
What sort of character does that actor play?
- Collect photographs of the actor
Label the photographs to show what they tell you about that person's image or style.
Which photographs do you like best? Why are they the best?
- Suggest some storylines or parts from favourite books and stories that would suit your favourite star.

Evaluation work.

1. What attracts people to certain actors and actresses?
2. Do actors go for the same sorts of roles most of the time? If so, why?
3. What sort of images do actors and actresses try to put across to their audiences?
