

## MODERN LANGUAGES

### FRENCH and ITALIAN GCSEs

These are two year courses open to all pupils who have studied the language in main stream at KS3 and who wish to further their language skills of listening, speaking, reading and writing. There are two levels of entry: foundation and higher, catering for all abilities.

Topics include Holidays, Leisure, Family, Town, Environment, School Future Plans, the World of Work, Sport and Cinema.

Conversation classes take place with the Language Assistants and there is an opportunity of utilising the Modern Languages IT suite. Pupils also benefit from a GCSE revision course in Cardiff and workshops at Cardiff University. A study trip to France and Italy is offered. The photos are from visits to France and a revision course at Cardiff University.

Learning a language opens the doors to many opportunities. Please see the notice board outside room 204 or your Languages teacher for more information.

NB: If a foreign language is chosen at GCSE level, it must be the one which has been studied during the previous three years.

### GERMAN "after school club"

We are considering running a German course after school. This might well lead to a GCSE qualification at either Foundation or Higher level. If you might be interested please see Miss Evans. The topics covered are the same as French and Italian.
